Executive Summary

AP-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

1. Introduction

Each year, the City of Wichita Falls receives entitlement grant funds from the U.S. Department of Housing and Urban Development (HUD) to undertake housing and community development activities that meet local priority needs identified in the City's five-year 2015-2019 Consolidated Plan. Annual Action Plans present a blueprint of how Wichita Falls intends to use the federal funds to be received. All activities undertaken by the City in support of the Consolidated Plan must also meet eligibility requirements of the federal Community Development Block Grant (CDBG) or HOME Investment Partnership (HOME) Programs. The Program Year 2019 Annual Action Plan (Year 5) of the Consolidated Plan describes proposed activities that serve to implement a unified and strategic vision supporting decent housing, a suitable living environment, expanded economic opportunities, and improved public services that primarily benefit low-moderate income persons and neighborhoods. This PY 2019 Action Plan addresses available funding resources and dollar amounts allocated for the specific activities proposed to be undertaken during the period of October 1, 2019, through September 30, 2020.

2. Summarize the objectives and outcomes identified in the Plan

This could be a restatement of items or a table listed elsewhere in the plan or a reference to another location. It may also contain any essential items from the housing and homeless needs assessment, the housing market analysis or the strategic plan.

This could be a restatement of items or a table listed elsewhere in the plan or a reference to another location. It may also contain any essential items from the housing and homeless needs assessment, the housing market analysis or the strategic plan.

This PY 2019 Action Plan contains a range of goals, objectives, and outcomes formulated to address needs identified for homelessness, other special needs, affordable housing, and non-housing community development, barriers to affordable housing, lead-based paint hazards, institutional structure, and coordination. These objectives include:

- Continue to plan, monitor and administer Entitlement Grant Programs and ensure compliance with Federal Regulations.
- Improve the condition of housing for low-income homeowners.
- Increase the development of units and affordability of housing for homeownership.
- Address community needs through community-based public service programs.
- Address community needs through improvements and expansion of Public Facilities and Public infrastructure.

These objectives are supported by a collection of associated strategies and performance goals. These strategies seek to work toward meeting the objectives stated, addressing the need for more affordable housing, housing rehabilitation, public facilities and infrastructure improvements, and public services. Specifics can be found in the Strategic Plan and Annual Action Plan.

3. Evaluation of past performance

This is an evaluation of past performance that helped lead the grantee to choose its goals or projects.

Wichita Falls has a history of successful programs funded through the Community Development Block Grant and HOME Investment Partnership Program that meet the needs of the community, principally the low and moderate income population, and that are identified as a priority in the Consolidated Plan. Of particular importance to the continued well-being and vitality of the city's neighborhoods have been programs that focus on improving the condition of housing stock. The City has successfully administered housing rehabilitation activities benefitting lower income, handicapped, and elderly owner-occupied households unable to properly maintain the repair of their homes. Thousands of feet of old and deteriorated waterlines in low-income residential neighborhoods have been replaced with larger-capacity waterlines, resulting in increased reliability and water quality and enhanced fire protection. For severely deteriorated structures that are a hazard and blight on the neighborhood, the City has funded demolition and clearance activities. Since 1993 the HOME-funded First Time Homebuyer's Program has enabled many low-moderate income persons to benefit from homeownership. The nationally-recognized Concrete Training Program has greatly improved accessibility throughout the city by installing handicapped ramps from street to sidewalk while training low-skill and unemployed workers.

The City has actively coordinated with local homeless services providers to assist in the goal to expand both the stock of units/beds available to homeless persons and provide services aimed at helping those persons find employment, housing, health care services, and educational opportunities. Further details of past performance can be found in the City's Consolidated Annual Performance and Evaluation Report (CAPER).

4. Summary of Citizen Participation Process and consultation process

Summary from citizen participation section of plan.

Letters to local non-profit organizations were sent February 20, 2019, announcing the availability of PY 2019 Funding Applications, informing potential applicants of program requirements and the availability of technical assistance for completing the application process and establishing the deadline for submitting requests for funding. Notifications were sent March 7, 2019, to City Departments announcing the availability of PY 2019 Funding Applications. To broaden outreach to the community, the funding announcement and a fillable application were also placed on the City's website. Applicants interested in pursuing PY 2019 CDBG funding met with the City Council Subcommittee on Outside Agencies on May 23, 2019, to ask questions, present proposals, and share information about their needs. On June 18, 2019, City Staff and the City Council Subcommittee on Outside Agencies met to discuss recommendations to City Council. The Draft Annual Plan was advertised for 30-day public comment period begins 7/6/19 and ends 8/5/19. City Council held a Public Hearing and approved the Annual Plan on August 6, 2019.

AP-10 Consultation – 91.100, 91.200(b), 91.215(l)

1. Introduction

The Neighborhood Resources Division of the City of Wichita Falls collaborates throughout the year with local agencies and service organizations to share information and improve coordination to more effectively meet the needs of our local community. Subrecipients, public service agencies, special needs providers, housing providers, member agencies of the homeless coalition, and a variety of non-profit and state agencies provide ongoing input that clarifies local needs, facilitates referrals for services, and allows for a re-evaluation of programs and services provided.

Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(l))

The division has a close interactive working relationship and frequent contact with agencies such as the Section 8 Housing Office, the Wichita Falls Housing Authority, Nortex Regional Planning Commission, Patsy's House, First Step Shelter, Rolling Plains Management Corporation, Area Agency on Aging, Christmas in Action, Community Health Care Center, Habitat for Humanity, and Adult Protective Services, all of whom refer clients for services offered by the City and to whom the City makes referrals. The City has two representatives on the Continuum of Care and participates in Homeless Coalition of North Texas meetings. Several mental health, public health, and special needs service agencies have applied for and received CDBG funding for projects through past and current annual allocation cycles, and as a result, have developed and maintained productive collaborative relationships with the City. The City also makes an effort to share helpful information and resources with local agencies to assist them in their work.

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

The City works closely with and regularly attends Continuum of Care homeless coalition meetings as they are scheduled, sharing insight and comment for problems and issues impacting local agencies as related to homelessness. The City has provided guidance and resources to a local entity interested in establishing a veteran's village to offer transitional housing units and services to homeless veterans and their special needs; the City has consulted with and is providing CDBG funding during 2019-20 for an organization that provides shelter for domestic violence victims; and the City works in cooperation with Nortex Regional Planning Commission's Housing Services Office in support of the Permanent Supported Housing Program that it administers, referring potential clients threatened with homelessness or who are homeless and that contact the City seeking housing assistance.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS

The City does not receive any ESG funding, but is an active participant in the North Texas Homeless Coalition CoC and contributes to planning and discussions that arise concerning the populations served by programs administered by the various entities in attendance. Nortex Regional Planning Commission, where coalition meetings are held, manages the HMIS system. At several coalition meetings, members discussed the HMIS system administration, use, cost, and applicability to meet the needs of local service providers. The coalition is currently developing the HMIS system software for use by local social service organizations which is expected to expand functionality and enhance data sharing among member agencies.

Several sub-recipient organizations are members of the CoC and deliver services in addition to what CDBG funds enable for the at-risk population we jointly serve, in an effort to increase independence and reduce the potential for homelessness.

A variety of opportunities and mechanisms were made available to the community requesting citizen input concerning local needs and comments on the use of expected grant funding. A Notice of Funding Availability explaining the CDBG application process and eligibility requirements was mailed to local non-profit organizations and posted on the Neighborhood Resources webpage. Newspaper ads announcing public forums and public hearings; meetings with representatives of the City Council to present proposals, explain impacts, and advocate for projects; local television broadcast news reports that explained how CDBG funds are proposed to be used in the community and notified citizens of an opportunity for public comment at a City Council public hearing; a newspaper-advertised public hearing related to the PY19 Action Plan that invited attendance and encouraged citizen comment; direct citizen feedback provided to the full City Council at an advertised and televised public hearing; and general information about the application, funding and public comment process that was mailed to local community organizations and made available on the City's website and that encouraged public input. Interactions, comments, and applications for CDBG funding that resulted confirmed that the goals and priorities established in the Consolidated Plan for our community were being addressed by the funding of past and current projects and activities.

Expected Resources

AP-15 Expected Resources – 91.220(c)(1,2)

Introduction

Wichita Falls receives funding from two federal grant programs, the Community Development Block Grant Program, and the HOME Investment Partnership Program. These two grant programs combined will provide \$1,633,431 in PY 2019 entitlement amounts and \$100,000 in prior-year CDBG unexpended funds for use by the City for a total of \$1,733,431 to support decent, affordable housing, a suitable living environment, expanded economic opportunities, and improved public services that primarily benefit low-moderate income persons and neighborhoods.

Table 5 - Expected Resources – Priority Table

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

Matching requirements for the HOME Program will be met through one or more of the following sources: the present discounted value of yields forgone; waived taxes, fees and charges; and donated professional services, materials, and volunteer labor according to the type and programmatic aspects of the particular activities funded. CDBG dollars are also leveraged by sellers of affordable housing through the First-Time Homebuyers Program performing repairs required by the property inspection. CDBG funding in support of local non-profit activities and public facility improvements often results in additional leveraged dollars from local foundations and State entities to augment funding requirements for services and activities provided by the local sub-recipient agencies.

If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

On tax-foreclosed properties, the City serves as a trustee for the three local taxing entities: Wichita County, Wichita Falls Independent School District, and the City of Wichita Falls. When suitable real estate parcels are acquired for non-payment of taxes or liens, the City, with the agreement of the county and school district, makes that property available to non-profit housing developers such as Habitat for Humanity to acquire at no or a very low cost for use in developing affordable housing. The City will continue to evaluate opportunities to use public lands for future development that benefit locally identified needs contained in the ConPlan.

Discussion

The City plans to program approximately \$1.7 million from the CDBG and HOME programs for the FY 2019 program year. This sum includes both annual entitlement allocations and \$100,000 in reprogrammed CDBG funds from previous program years. These funds will be used to operate a varied range of private and public services as described in subsequent sections of the Annual Action Plan. Above is also an indicated Other CDBG-CV fund amount in the total amount of \$1,328,013. CDBG-CV funds were allocated in the amount of \$733,264 via an amendment to the PY 2019 AAP on June 23, 2020 during the initial CV1 disbursement, and a further \$594,749 via an amendment in August 2021 to access the CV3 funds allocated to the City of Wichita Falls. The City amended the Action Plan again on August 2, 2022 to reallocate remaining CDBG-CV funding to other programs.

Describe the reasons for allocation priorities and any obstacles to addressing underserved needs

The projects listed above were selected from the total of project proposals received and are consistent with the priorities established through the Consolidated Plan. These projects meet local needs established in the Needs Assessment to the extent that funding was available. Organizational competencies were also considered when selecting projects, leaning toward those entities with long-

standing histories of successful community service and project management. Meeting underserved needs is subject to and contingent upon the limited amount of funding available for allocation.

AP-50 Geographic Distribution – 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

The City does not establish specific geographic target areas for project or funding concentration that exclude other low income-qualified sections of the city. Funding from the CDBG and HOME programs are applicable for use in any of the CDBG-eligible neighborhoods or citywide, depending on the design and nature of the specific programs and activities. The following numbers are strictly estimates based on past experience.

Geographic Distribution

Target Area	Percentage of Funds
Citywide	15
CDBG Eligible Areas	85

Table 8 - Geographic Distribution

Rationale for the priorities for allocating investments geographically

Allocation of funds is based on local priority needs, funding availability and the design of each project undertaken, with the result that much of the federal investment is allocated to the benefit of the individual low-income person or family and to a lesser degree a CDBG-eligible area as a measure of meeting a national objective. Areas of deteriorating housing conditions, more prevalent in low-income census tracts, were also considered in the identifying process for activities undertaken.

Discussion

The distribution of funds is projected to be mostly citywide due to use of funds for administration, non-profit organization support, and individual benefit-oriented programmatic uses of the funds. The remaining funds are estimated to be spread through the more geographically-limited CDBG-eligible areas.

AP-65 Homeless and Other Special Needs Activities – 91.220(i)

Introduction

The City of Wichita Falls is active in the Homeless Coalition of North Texas Continuum of Care (CoC), addressing issues related to homelessness in the region. Funding for homeless projects and services primarily comes through the CoC's sources of financial grant support and from that of the agencies and entities represented by the 36 members of the coalition.

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The local Continuum of Care conducts annual surveys of homeless individuals including unsheltered persons. These point-in-time surveys assist in helping to focus coalition agency activities and resources for the coming year and provide documentation of the scope and scale of the needs of homeless individuals and families in our area. NORTEX Regional Planning Commission, Faith Mission, and Faith Refuge, First Step, Church Without Walls, Phased IN and the Salvation Army are the lead agencies for providing shelter and/or direct services for homeless or homeless-threatened persons and families.

Addressing the emergency shelter and transitional housing needs of homeless persons

In recent proceedings funding cycles, the City of Wichita Falls has provided financial assistance for facility rehab/repair needs of local organizations that serve to provide emergency shelter for homeless persons. The City also remains receptive to providing support for the Continuum of Care and local organizations such as First Step, Faith Mission, and Faith Refuge in their efforts to provide for the emergency shelter and transitional housing needs of homeless persons in the community. When aware of a need, the City makes referrals to Nortex Regional Planning Commission's My Walls Permanent Supported Housing Program which serves to assist chronically homeless with shelter and support.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

With limited staff and funding, the City of Wichita Falls does not currently administer any specific activities that would help homeless persons transition to permanent housing and independent living. However, the City has collaborated with and will continue to support the efforts of local entities

interested in improving support systems and housing opportunities for homeless persons and homeless veterans. The City is providing CDBG funding support that will help facilitate an additional housing project for young adults emancipated from foster care. The City also continues to collaborate with Catholic Charities in referring persons for the various services offered to assist with housing, education, financial and other needs of low-income residents and veterans. The City's Planning Department continues to work with a local non-profit organization during the initial development stage of a project that hopes to bring transitional housing and services in a planned tiny-house village targeted to assist the veteran population. The City's Section 8 Office provides rental assistance to qualified persons, improving housing opportunities for low-income members of the community.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

Homeless prevention is a major focus of the participants in the Continuum of Care. Member agencies support homeless prevention in conjunction with programs that provide shelter and other support services. The City collaborates with the Permanent Supported Housing Program administered by Nortex Regional Planning Commission in referring individuals for support services offered by the program. The City funded Phased IN's effort to increase housing for post-foster care youth aging out of the system by assisting with facility improvements in the form of a roof replacement that was completed during PY 2018 which will provide an additional 15 beds for transitional housing and help prevent potential homelessness of this special needs group. This year City is assisting First Step, Inc. with repairs and improvements to the shelter that serves approximately 300 domestic abuse/sexual assault victims.

Discussion

The participants in the Continuum of Care work closely together to meet the needs of homeless individuals and families through the continuum of services coordinated through the partnership.

AP-75 Barriers to affordable housing – 91.220(j)

Introduction:

There are no known public policy barriers to the production of affordable housing units in Wichita Falls. However, local economic growth of the city is relatively flat compared with other similar Texas housing markets, with a resultant limit on the number of available jobs with adequate pay to meet the costs of affordable housing for low-moderate income persons. The City's First Time Homebuyer Program assists with down payment and closing costs needed to acquire affordable housing. Habitat for Humanity of Wichita Falls also develops new single-family homes on available vacant lots within existing residential neighborhoods to help meet the needs for decent affordable housing. These homes carry a 0% mortgage interest rate.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

The Consolidated Plan identified no issues related to public policy that serve as barriers to affordable housing.

AP-85 Other Actions – 91.220(k)

Introduction:

The City currently provides a variety of community development and housing services to the residents of Wichita Falls, some funded by CDBG and HOME allocations, with private, State, and City funding bringing additional assets to bear on local problems. Following are some of the actions currently performed by the City or items under consideration for the future.

Actions planned to address obstacles to meeting underserved needs

Funding availability and staffing levels necessary to properly administer programs are major obstacles in providing the services needed to focus on the wide variety of issues that prevent families from breaking out of poverty and that hinder low-income persons from living in the best, most affordable housing possible. Because funding levels are not adequate to meet the breadth and scope of local needs, the City will continue to be open to new funding sources for programs to address underserved needs. This being a small yet interactive and connected community, City staff strives to develop and maintain periodic contact, viable relationships, and open dialogue with a variety of agencies that meet local underserved needs and/or that have received previous or current CDBG grant funding for public facility improvements or public service activities. City staff is available for technical and advisory support of efforts at meeting community needs by local organizations. Membership in the local Continuum of Care facilitates and enhances relationships with agencies that meet the needs of the underserved. The free flow of information that results allows identification of obstacles and consideration of strategies to attempt to overcome those obstacles to meeting underserved needs.

Actions planned to foster and maintain affordable housing

Although no new tax credit projects were submitted to the City during the 2019 Texas Department of Housing and Community Affairs application period, the City will continue to offer support for viable tax credit projects for an affordable housing development that expands multi-family rental opportunities when those projects are presented for review. The City will continue to make local tax-foreclosed properties available to the City's CHDO, Habitat for Humanity, at low or no cost for affordable housing development. The First-Time Homebuyer Program assists low-moderate income persons with down payment and closing costs, and the property condition standards of the program result in repairs and improvements by owners to meet property requirements. The Minor/Emergency Repair Program and Christmas in Action's Homeowner Repair Program help low-income, elderly and disabled individuals maintain their homes, increasing sustainability.

Actions planned to reduce lead-based paint hazards

- Continue to apply and comply with HUD lead-based paint standards in housing rehabilitation and acquisition programs.

- Seek resources when needed to provide appropriate testing and abatement of lead-based paint hazards in housing projects where young children are present and/or where medical indications require environmental assessments to take corrective action in areas where children are possibly exposed to lead contaminants.
- Expand the stock of lead-safe housing units through housing development initiatives.
- Seek appropriate resources as they become available to provide for testing, abatement, training, and educational awareness.
- Staff participation in continuing education opportunities relating to lead-based paint.

Actions planned to reduce the number of poverty-level families

The City will continue its efforts working in conjunction with the Continuum of Care to reduce the number of poverty-level families through the development of services needed to assist those families with educational opportunities, job growth, and life skills training through the various social service agencies operating in the city. The City has provided ongoing financial support for the Early Head Start and Child Care, Inc. allowing low-income families to achieve work stability and greater economic independence. The Housing Authority of Wichita Falls administers a Family Self-Sufficiency Program whose goal is to increase employable skills and economic opportunity for residents. The Section 8 Program supplements housing costs incurred by low-income families, improving their overall financial condition. The City provides grant funding for many local non-profit organizations whose purpose is to assist low-income families with a variety of needs that relate to enhancing overall family stability and improved opportunity.

Actions planned to develop institutional structure

- Continue to work with non-profit organizations to address community needs and provide support to federal and non-federal funding initiatives.
- Work with private industry to address important issues that hamper housing and community development efforts.
- Identify opportunities to create private/public partnerships for project finance and program development to leverage federal funds.
- Assist the Wichita Falls Housing Authority with any support requested, such as technical assistance and review of Part 58 HUD environmental requirements and reports.
- Work with the banking and real estate communities in continuing to develop a cooperative and collaborative relationship with the goal of placing low-income persons in affordable housing.

Actions planned to enhance coordination between public and private housing and social service agencies

The City will continue to participate in planning activities with public and private housing and social service agencies, including involvement in the Homeless Coalition of North Texas' Continuum of Care

meetings, development of the Continuum of Care's capacity and services, and assisting in point-in-time and homeless surveys. City staff will also be available for participation in other coalitions and advisory groups as the opportunity arises. The City maintains close, cooperative relationships with a variety of local social service agencies by frequent contact with those providers. The City offers technical assistance to local non-profit organizations during the grant funding allocation process with the goal of encouraging local organizations to submit applications for funding.

Discussion:

These actions are primarily the continuation of what the City is currently doing in various areas. No major obstacles in the institutional structure have been identified that need to be addressed. The City continues to maintain and improve its efforts to coordinate with private housing and social service agencies.

HOME Investment Partnership Program (HOME)
Reference 24 CFR 91.220(l)(2)

1. A description of other forms of investment being used beyond those identified in Section 92.205 is as follows:

No other form of investment is planned beyond those identified in Section 92.205.

The City will continue to support the many efforts of non-profit and social service provider agencies in the community in efforts to obtain funding from various sources to operate their programs.

Many of these organizations receive private donations to sustain their programs and must apply for funding on the federal, state, and local level whenever available and applicable to the organization's mission.

The availability of additional federal funds would enhance any of the listed programs and would mean that more services and housing opportunities could be provided. Because of the limited amount of private, state and federal funding, the City has offered to collaborate with and provide technical support to various organizations in an attempt to develop programs that would increase the leveraging capacity of funding mechanisms so that more money would be available for needed endeavors. Better use of the existing resources and increasing those resources are the main concerns of local agencies.

2. A description of the guidelines that will be used for resale or recapture of HOME funds when used for homebuyer activities as required in 92.254, is as follows:

Included in the FTHB application process, and explained to the buyer during the application interview with staff, is a written agreement that includes a section titled "Notice Regarding Recapture Provisions of the FTHB Program." Buyers sign the form acknowledging they understand the repayment of assistance under certain conditions. Buyers are required to repay all or part of the HOME Program assistance if and when they cease to occupy the property as their primary principal residence during the 5-year or 10-year affordability period. If the assistance amount from the FTHB Program is less than \$15,000, the affordability period is 5 years and the assistance is forgiven at 20% on the anniversary date of the transfer of title for each year the FTHB occupies the house as their primary residence. If the assistance amount is greater than \$15,000, the affordability period is 10 years and the assistance is forgiven at 10% on the anniversary date of the transfer of title for each year the FTHB occupies the house as their primary residence. If a sale or foreclosure occurs, and proceeds do not allow for the full repayment amount, the repayment will be made from "net proceeds", defined as the amount remaining after repayment of the mortgage loan balance and payment of seller's closing costs.

3. A description of the guidelines for resale or recapture that ensures the affordability of units acquired

with HOME funds? See 24 CFR 92.254(a)(4) are as follows:

Included in the CHDO Affordable Housing Program and First-Time Homebuyer's (FTHB) Program applications, and explained during the applicant's interview with staff, is a written agreement that includes a section titled "Notice Regarding Recapture Provisions of the CHDO Affordable Housing Program/and or First-Time Homebuyer's Program." Buyers sign the form acknowledging they understand the repayment of assistance under certain conditions. Buyers are required to repay all or part of the HOME Program assistance if and when they cease to occupy the property as their primary principal residence during the 5-year or 10-year affordability period. If the assistance amount from the CHDO Affordable Housing Program or FTHB Program is less than \$15,000, the affordability period is 5 years and the assistance is forgiven at 20% on the anniversary date of the transfer of title for each year the buyer occupies the house as their primary residence. If the assistance amount is greater than \$15,000, the affordability period is 10 years and the assistance is forgiven at 10% on the anniversary date of the transfer of title for each year the buyer occupies the house as their primary residence. If a sale or foreclosure occurs, and proceeds do not allow for the full repayment amount, the repayment will be made from "net proceeds", defined as the amount remaining after repayment of the mortgage loan balance and payment of seller's closing costs.

4. Plans for using HOME funds to refinance existing debt secured by multifamily housing that is rehabilitated with HOME funds along with a description of the refinancing guidelines required that will be used under 24 CFR 92.206(b), are as follows:

The City does not intend to use HOME funds to refinance existing debt secured by multifamily housing that was rehabilitated with HOME funds. In addition, the funds will not be used to refinance multifamily loans made or insured by any federal program. The City is aware that HOME funds cannot be used to refinance multifamily loans made or insured by any federal program, including CDBG.

The City strives to meet all program specific requirements as detailed in the enabling legislation and program guidelines. The City works with and oversees sub grantees to inform them about program requirements and ensure that these standards are met.

HOME Program applicants are not limited to a certain category other than those that meet criteria required by regulation. Most applicants are referred to the City by mortgage lenders and Realtors who generally make initial contact with potential homebuyers. Information about activities available through the HOME Program and how to apply for assistance is disseminated through both the City's webpage and through program brochures provided to the local real estate community and to thirteen different participating mortgage lenders. Brochures are also placed in information displays throughout City Hall and related non-profits. Program information is emailed or mailed to any person making an inquiry about HOME Program assistance. The City does not fund sub-

recipients under the HOME Program and thus does not seek proposals from other entities.

Applicants are not limited by any preference category or classification other than being first required to pre-qualify for a standard mortgage loan through a participating lender. Although only implemented on one occasion in program history, if available funding appears insufficient to support the number of FTHB applicants, once that becomes a possibility we will implement a first-come, first-served requirement that established a dated preference process for receiving assistance to those who have successfully completed the income documentation process, the homebuyer education requirement, and who have provided an executed purchase contract.

Homebuyer assistance under both the FTHB and CHDO Affordable Housing Programs is provided for the direct benefit of the homebuyer through the title company performing the property closing. This HOME funding assistance and the provisions under which it can be recaptured are secured by an executed Note and Subordinate Deed of Trust filed for record with the Wichita County clerk.

Net proceeds are defined as the amount remaining after payment of a seller's closing costs and payment of the remaining balance of the mortgage loan amount. If net proceeds remain following these obligations, the HOME Program receives first funding up to the full amount required under the forgiveness schedule of 20% at each anniversary date (for a 5-year period of affordability), with the homebuyer then receiving any remainder. If net proceeds are insufficient to repay the complete HOME assistance due, the City will accept whatever proceeds remain as the satisfaction of the repayment requirement. In this instance, the seller will not receive any proceeds.

In addition, in the case of properties owned and occupied by moderate-income (not low-income) families, an assessment or charge may be made against the property for public improvements financed by a source other than CDBG funds if the jurisdiction certifies that it lacks CDBG funds to cover the assessment.

Title

Specific Community Development Block Grant Certifications

The Entitlement Community certifies that:

Citizen Participation -- It is in full compliance and following a detailed citizen participation plan that satisfies the requirements of 24 CFR 91.105.

Community Development Plan -- Its consolidated plan identifies community development and housing needs and specifies both short-term and long-term community development objectives that have been developed in accordance with the primary objective of the CDBG program (i.e., the development of viable urban communities, by providing decent housing and expanding economic opportunities, primarily for persons of low and moderate income) and requirements of 24 CFR Parts 91 and 570.

Following a Plan -- It is following a current consolidated plan that has been approved by HUD.

Use of Funds -- It has complied with the following criteria:

1. Maximum Feasible Priority. With respect to activities expected to be assisted with CDBG funds, it has developed its Action Plan so as to give maximum feasible priority to activities which benefit low- and moderate-income families or aid in the prevention or elimination of slums or blight. The Action Plan may also include CDBG-assisted activities which the grantee certifies are designed to meet other community development needs having particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community, and other financial resources are not available (see Optional CDBG Certification).

2. Overall Benefit. The aggregate use of CDBG funds, including Section 108 guaranteed loans, during program year(s) 2019 - 2020 [a period specified by the grantee of one, two, or three specific consecutive program years], shall principally benefit persons of low and moderate income in a manner that ensures that at least 70 percent of the amount is expended for activities that benefit such persons during the designated period.

3. Special Assessments. It will not attempt to recover any capital costs of public improvements assisted with CDBG funds, including Section 108 loan guaranteed funds, by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements.

However, if CDBG funds are used to pay the proportion of a fee or assessment that relates to the capital costs of public improvements (assisted in part with CDBG funds) financed from other revenue sources, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds.

In addition, in the case of properties owned and occupied by moderate-income (not low-income) families, an assessment or charge may be made against the property for public improvements financed by a source other than CDBG funds if the jurisdiction certifies that it lacks CDBG funds to cover the assessment.

APPENDIX TO CERTIFICATIONS

INSTRUCTIONS CONCERNING LOBBYING CERTIFICATION:

Lobbying Certification

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

Specific Community Development Block Grant Certification

The Entitlement Community certifies that:

Citizen Participation -- It is in full compliance and following a detailed citizen participation plan that satisfies the requirements of 24 CFR 91.105.

Community Development Plan -- Its consolidated plan identifies community development and housing needs and specifies both short-term and long-term community development objectives that have been developed in accordance with the primary objective of the CDBG program (i.e., the development of viable urban communities, by providing decent housing and expanding economic opportunities, primarily for persons of low and moderate income) and requirements of 24 CFR Parts 91 and 570.

Following a Plan -- It is following a current consolidated plan that has been approved by HUD.

Use of Funds -- It has complied with the following criteria:

1. Maximum Feasible Priority. With respect to activities expected to be assisted with CDBG funds, it has developed its Action Plan so as to give maximum feasible priority to activities which benefit low- and moderate-income families or aid in the prevention or elimination of slums or blight. The Action Plan may also include CDBG-assisted activities which the grantee certifies are designed to meet other community development needs having particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community, and other financial resources are not available (see Optional CDBG Certification).

2. Overall Benefit. The aggregate use of CDBG funds, including Section 108 guaranteed loans, during program year(s) 2019 - 2020 - 2021 (a period specified by the grantee of one, two, or three specific consecutive program years), shall principally benefit persons of low and moderate income in a manner that ensures that at least 70 percent of the amount is expended for activities that benefit such persons during the designated period.

3. Special Assessments. It will not attempt to recover any capital costs of public improvements assisted with CDBG funds, including Section 108 loan guaranteed funds, by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements.

However, if CDBG funds are used to pay the proportion of a fee or assessment that relates to the capital costs of public improvements (assisted in part with CDBG funds) financed from other revenue sources, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds.

In addition, in the case of properties owned and occupied by moderate-income (not low-income) families, an assessment or charge may be made against the property for public improvements financed by a source other than CDBG funds if the jurisdiction certifies that it lacks CDBG funds to cover the assessment.

Excessive Force -- It has adopted and is enforcing:

1. A policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in non-violent civil rights demonstrations; and
2. A policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of such non-violent civil rights demonstrations within its jurisdiction.
